Hello Mrs. [REDACTED],

I'm not sure whether or not you are aware of the role that advisory boards play at Massachusetts vocational schools. Each technical area has an advisory board comprised of various segments of the community. It includes the shop teachers, representatives from higher education, industry, parents, students, alumni, etc. At present, as a result of last year's graduation, we do not have parent representation on our board.

I am writing to see whether you might be interested in joining the Programming and Web Development advisory board. In general, you would be making a commitment to attend 2 meetings during the year. The first is on October 8 and the second is in the spring. The fall meeting includes a general meeting attended by all shops and a dinner catered by the culinary arts students. The spring meeting is more abbreviated and is scheduled by consensus within the shop specific breakout session of the fall meeting.

The discussions that we've had lead me to believe that you would make an excellent parent rep and would give you input and insight into the general direction of our program. Let me know if you are interested and I will provide you with the necessary form to complete.

Thank you,

Larry Lambert
