### Flow Chart Exercises

- 1.) Describe the actions represented by the following flow chart?

- 2.) On separate sets of paper, create flowcharts to represent these short tasks:
- A. "If it's raining, bring an umbrella."
  - B. "Take twenty five paces, then turn and shoot."
  - C. "Follow Main Street for 2 miles, then take a right turn onto Maple Avenue. Go until you reach the bridge, but don't cross the bridge. Instead, make a left turn onto Strawberry Lane, then take the third left turn. Follow that road until you reach the Computer Science building."
  - D. "Turn on oven. cook turkey for 4 hours or until meat thermometer reaches 180 degrees."
- 3.) On separate sets of paper, make a flow chart for the process of crossing the street.  
*Hint: Looking both ways won't do any good unless you use that information to make some decisions.*
